

Fully programmable Lab blender – BL Style

The new BL Style Lab Blender, fully programmable for homogenisation speed and time, is the ideal equipment for the treatment of food and feed samples prior to microbiological analyses, as it strongly reduces the risk of the membrane cells breakage meanwhile ensuring an excellent homogenisation of all kinds of sample.

Technical features:

- ⊕ 3 different times can be programmed and stored in memory, independently
- ⊕ 3 different homogenisation speeds can be selected: low (*about 3 hits/second*), middle (*about 3.5 hits/second*) and high (*about 4 hits/second*)
- ⊕ Weight: 33.5 Kg.
- ⊕ Other features: as for BL Smart Lab Blender.

Code no. 65560 Fully programmable Lab blender – BL Style
