ExtremeWireless™ AP305C/CX

Wi-Fi 6 certified (802.11ax) Indoor Access Point with integrated or external antenna options

The AP305C/AP305CX are indoor enterprise APs based on a new system-on-a-chip (SoC) with two built-in dual-band radios providing the best value with Wi-Fi 6 high efficiency. You have your choice of models with either integrated or external antennas. Advanced radio technology delivers 802.11ax 2x2:2 data rates up to 2.4 Gbps concurrently on both the 2.4 GHz and 5 GHz radios. These 2x2:2 APs continue the Extreme tradition of software-selectable radios (SSRs) capable of dual 5 GHz connectivity for indoor and industrial environments.

Priced for the mass-market, this enterprise-grade access point is ideal for budget-conscious enterprises who do not want to sacrifice performance.

The AP305C/AP305CX comes in an aesthetic design and can fit in the palm of your hand. Both models are eco-friendly APs partially made from recycled materials. Also included is an integrated light sensor and integrated power meter to help conserve power consumption*. The easy install ceiling mount for quick installation and unique way to hide the Ethernet cables for an aesthetically pleasing installation.

Despite the exponential growth of users, BYOD devices, IoT, high-bandwidth applications and security threats straining the infrastructure, the AP305C/AP305CX combines performance, security services and insightful ML/AI management capabilities to deliver an enterprise class solution at a value price.

Highlights

Radio Technology
- 5 GHz 2x2:2
- 2.4 GHz 2x2:2

Radio Modes - SSR
- 5 GHz / 2.4 GHz - Fixed
- 5 GHz / 5 GHz - Dual 5 GHz

High Density Environments
- Delivers exceptional end-user experience even in dense user environments

WPA3 Support
- Includes the latest WPA3 Wi-Fi security standard delivering robust protections for users and IoT devices

Fully Functional over 802.3af

Smart Management
- ExtremeCloud™ IQ delivers powerful, simple, and secure public or private cloud management capabilities

Built to Suit Your Business Needs

Extreme Elements are the building blocks that allow you to tailor your network to your specific business environment, goals, and objectives. They enable the creation of an Autonomous Network that delivers the positive experiences and business outcomes most important to your organization.

Combining architecture, automation, and artificial intelligence, Extreme Elements enable you to ensure that your users get what they need — when and where they need it. Providing these superior user experiences is as simple as mixing and matching the right elements.

Subject to change until product is released
Security

The AP305C/AP305CX delivers the highest level of security services, beginning with support for the latest Wi-Fi Alliance WPA3 security certifications. Additionally, the AP305C.CX supports a stateful L2-L7 DPI firewall for context-based access security, Private Pre-Shared Key (PPSK) and much more.

Management Analytics

In conjunction with Extreme Management system, cloud or on-premises, the AP305C/AP305CX provides a very rich set of data displayed via context driven widgets, representing historical data or a combination of historical and current data. This provides context-specific granularity with perspective views for locations, network, APs, individual client devices, as well as policy roles. In each context, administrators can adjust dashboards make a widget library.

Wi-Fi 6 Technology

Prior generations of 802.11n, 802.11ac wave 1 and 2, can be considered generational improvements with an emphasis on faster speed. 802.11ax technology instead enhances Wi-Fi efficiency as well as speed, taking Wi-Fi networks to an entirely new level. To learn more about 802.11ax, go to: https://www.extremenetworks.com/are-you-ready-for-802-11ax

RF Monitoring

Network managers will appreciate a powerful choice of RF management for their Wi-Fi networks, with Adaptive RF management with AI/ML-like functionality. Adaptive RF algorithms provide intelligent selection of the best channels and transmit power for unimpaired dual 5 GHz operation. Load balancing, band steering and many other attributes of the RF can all be automated.

Programmable Radios

Extreme launched the industry’s first software defined 802.11ax access point supporting not only a dual 5 GHz capability but also two software programmable modes to optimally manage radios to provide the highest level of client performance. The AP305C/AP305CX intelligent monitoring of the software-configurable radios enables network managers to configure network RF technology based on user environment and configure the access points in different modes as required.

Integrated BLE and Zigbee

To support both IoT and Guest Engagement services the AP305C/AP305CX integrates Bluetooth to connect with IoT devices with Thread wireless to engage loyalty customers with Apple iBeacon. Enterprises can use API driven applications to send advertisements directly to shoppers, guests, and conference attendees. This makes it ideal for businesses to advertise their app download pages, captive portals, or site-specific information.
Product Specifications

Radio Specifications

802.11a
- 5.150–5.850 GHz Operating Frequency
- Orthogonal Frequency Division Multiplexing (OFDM) Modulation
- Rates (Mbps): 54, 48, 36, 24, 18, 12, 9, 6 w/ auto fallback

802.11b
- 2.4–2.5 GHz Operating Frequency
- Direct-Sequence Spread-Spectrum (DSSS) Modulation
- Rates (Mbps): 11, 5.5, 2, 1 w/ auto fallback

802.11g
- 2.4–2.5 GHz Operating Frequency
- Orthogonal Frequency Division Multiplexing (OFDM) Modulation
- Rates (Mbps): 54, 48, 36, 24, 18, 12, 9, 6 w/ auto fallback

802.11n
- 2.4–2.5 GHz & 5.150–5.850 GHz Operating Frequency
- 802.11n Modulation
- Rates (Mbps): MCS0 - MCS15 (6.5MBps – 300Mbps)
- 2x2 Multiple-In, Multiple-Out (MIMO) Radio
- HT20 High-Throughput (HT) Support (for both 2.4 GHz and 5 GHz)
- HT40 High-Throughput (HT) Support for 5 GHz
- A-MPDU and A-MSDU Frame Aggregation

802.11ac
- 5.150–5.850 GHz Operating Frequency
- 802.11ac Modulation
- Rates (Mbps): MC50 - MCS15 (6.5Mbps - 867Mbps), NSS = 1-2.
- 2x2:2 Stream Multiple-In, Multiple-Out (MIMO) Radio
- HE20/HE40/HE80 support
- TxBF (Transmit Beamforming)

802.11ax
- 2.4–2.5 GHz & 5.150–5.850 GHz Operating Frequency
- 802.11ax Modulation (1024-QAM)
- Dual-band OFDMA
- 2x2:2 Stream Multiple-In, Multiple-Out (MIMO) Radio
- HE20/HE40/HE80 support
- TxBF (Transmit Beamforming)
- BLE 5 Radio Bluetooth® Low Energy (BLE) and IEEE® 802.15.4 compliant

Power Options
- Power Draw: Typical 14.98W w/USB, 9.98W w/o USB
  Max: 16.28W w/USB, 11.28 W w/o USB
- 802.3af Power over Ethernet (PoE) capable
  Gigabit Ethernet port (RJ-45 power input pins: Wires 4,5,7,8 or 1,2,3,6)
- Support 802.3at Power over Ethernet injector

Physical
- 5.2” x 5.2” x 1.3” (133mm x 133mm x 35mm)
- AP305C and AP305CX: .8 lbs (.38 kg)

Antennas
- AP305C - Internal Antennas
  (2) Integrated single band, 2.4–2.5 GHz omnidirectional antennas
- AP305CX
  (4) RP SMAs connectors

Mounting
- AP support 15/16 flush ceiling tile and is integrated to AP
- Wall Mount sold as an accessory
- Ceiling Tile Recessed 15/16” sold as an accessory
- Built-in slot for Kensington type locks

Environmental
- Operating: 0 to 40 °C, Storage: -40 to 70 °C
- Humidity: 10% to 95% (non-condensing)

Environmental Discharge
- +/-8 kV (contact discharge)/ +/-15 kV (Air Discharge)

Regulatory Compliance
Product Safety Certifications
- IEC 62368/60950-1, EN 62368/60950-1, USA 62368/60950-1, AS/NZS 62368/60950.1, Intertek NTRL
- RoHS Directive 2011/65/EU

Radio Approvals
- FCC CFR 47 Part 15, Class B
- ICES-003 Class B, FCC Subpart C 15.247, FCC Subpart E 15.407, RSS247
- AS/NZS4268 + CISPR32
- IEC/EN 60601-1-2
- EN 62479: 2010
- EN 62311: 2008
- EN 50385: 2002
- EN 301 489-1, Class B
- EN 301 489-3, Class B
- EN 301 489-17, Class B
- EN 55032: 2015, (Class B)
- EN 60601-1-2:2013
- EN 61000-3-2: 2014
- EN 61000-3-3: 2016
- EN 300 388-11:2016
- EN 300 220-3:2017
- EN 300 440-21:2017
- EN 300 440-3:2017
- EN 300 440-23:2017
