

Benchtop-Spectrophotometer

ColorLite ColorCube

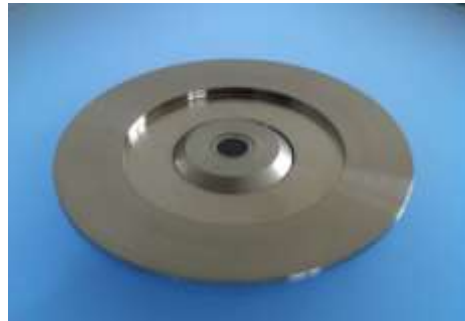

Different probe head versions :

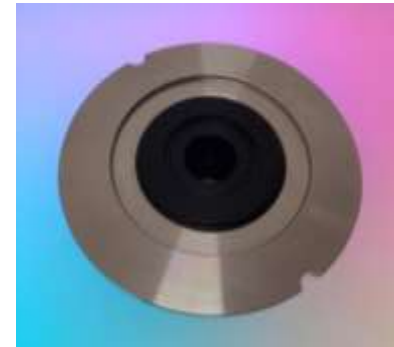

***d/0° geometry
40 mm***

***inhomogeneous samples like
granules, powder, foods,
wooden surfaces***

***d°/8° geometry
3, 6, or 10 mm***

***for high glossy,
mirror like surfaces
1 channel system
OR 2 channel system***

***45°/0° geometry
10 mm***

***Standard probe head
for homogeneous surfaces
black metrics
2 channel system***

Benchtop-Spectrophotometer

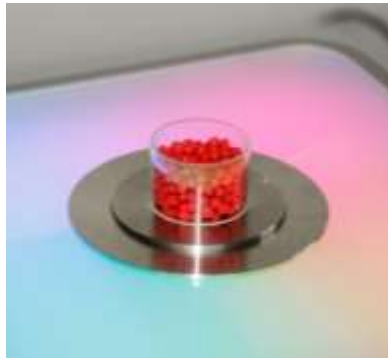

ColorLite ColorCube

Different accessories:

***Stainless steel
cuvettes***

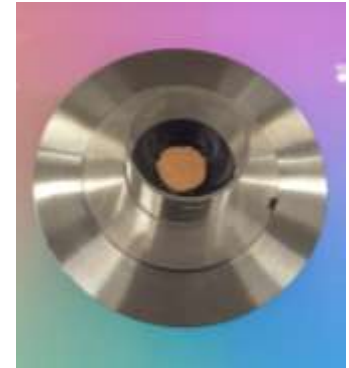

***to avoid
lateral incidence
of light***

***Glass cuvettes
made of
optical glass***

***Spacer for reflection
measurement
of transparent liquids***

***Class cuvettes with
reduction ring
for small powder
samples***
