

# WS-650-23NPP®

## Modular Spin Processor

### Capable

Most processes today require higher speeds, and accurate, **rapid acceleration programmed per step.** Do not be fooled by others who say that it is not important.

### Support

Real process experts to answer your questions for the life of the product. Repairs in one business day, or order parts kits on-line 24/7 and repair it yourself.

### Value

is the best company, equipment, and support at the lowest possible price. Since 1985 High Value = **Laurell Technologies**

# Available Now. Ready For The Future.

## In-Stock and Ready to Ship

When your research cannot afford to wait, we have the ideal spin coating solution ready for you.

Standard configurations typically ship within one business day.

*New Single Shot Pump Driven Dispenser Shown*

## Total Control

**650 Controller** Simple to program and operate but very powerful.

**Spin 3000** PC interface software. Sophisticated, intuitive, and included **FREE** with every 650 system.

**Wireless Touch Screen Interface** Control, monitor, and change your process with a touch, ideal for use with glove boxes.

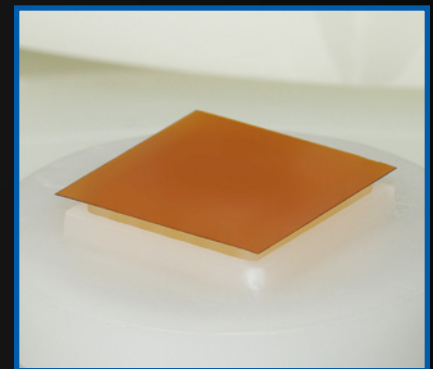

## Never Obsolete

When your process requirements change so can your system.

Our exclusive Back-Pack design allows you to add features such as automatic dispense, or Edge Bead Removal on site, without returning your system to the factory!

*Wafer Alignment Tool Shown*

*High Porosity Chucks for Thin or Fragile materials*
