

# MELON QUALITY METER

- *Accurately and rapidly measure Brix.*
- *Ascertain harvest and incoming fruit quality instantly.*
- *Easy, out-of-the-box operation.*

The F-751 Melon Quality Meter accurately and **non-destructively** measures Brix, the melon's key quality and ripeness metric. Using near-infrared (NIR) technology, the F-751 takes measurements in seconds, enabling melon growers, distributors, and retailers to rapidly gather data without destroying product. **Trusted by thousands of universities**, research institutes and commercial producers worldwide, Felix Instruments now brings the power of NIR technology to the kiwi industry.

**Measurement Range:** 5-15° Brix

**Varieties:** Honeydew, Cantaloupe

# SPECIFICATIONS

<b>Spectrometer</b>	Hamamatsu C11708MA	<b>PC Interface</b>	Wi-Fi
<b>Range</b>	640-1050 nm	<b>Data Recorded</b>	Raw data, reflectance, absorbance, 1 <sup>st</sup> derivative, 2 <sup>nd</sup> derivative, GPS, date, time
<b>Spectral Sample Size</b>	2.3 nm	<b>Measurement</b>	°Brix
<b>Spectral Resolution</b>	20 nm (FWHM) maximum	<b>Power Source</b>	Removable 3400 milliamp hour lithium-ion batteries
<b>Light Source</b>	Halogen Tungsten Lamp	<b>Battery Life</b>	500+ measurements
<b>Lens</b>	Fused silica coated to enhance NIR	<b>Body</b>	Heavy-duty aluminum body
<b>Shutter</b>	White painted reference standard	<b>Dimensions</b>	7.1" x 4.75"W, 1.75" thick
<b>Display</b>	Sunlight visible LCD screen w/ backlight	<b>Weight</b>	1.05 kg

## THE POWER TO PREDICT WITH FRUITMAPS®

Paired with the free application, Fruitmaps®, the F-751 Melon Quality Meter is a game-changer for the melon industry. Using a wi-fi connection, gathered data can be seamlessly uploaded to the cloud giving melon growers the power to visualize their entire crop's maturity and forecast harvest timing more accurately than ever before. In addition, the device gives QA professionals the ability to assess melon quality while in storage, and retail outlets the capacity to accurately inspect incoming product.
