

Viscol 10 AS

Automatic Kinematic Viscometer (with autosampler)

ASTM D445, ASTM D446, ISO 3104, ISO 3105, IP 71

Viscol-10AS offers continuous analysis with its automatic sampling unit with a capacity of 23 samples. After the analysis, the Viscol-10as models, which complete the washing and drying processes, move on to the next sample and continue the kinematic viscosity measurements without any intervention.
