

The tailor-made recovery for every equipment size

Ideal for:

Medium and High voltage AIS and Particle accelerators

Key selling points:

- Fully automated control of operations
- Available in **multiple versions** to meet all equipment size needs
- Compactness

Main technical features:

- Moisture filter
- Particulate filter
- Precision vacuum meter for vacuum gas measurement (0-100mbar)
- Precision vacuum meter for air vacuum measurement (0-100mbar)
- Inlet and outlet manometers
- 5 m long DN8 hose with 2 molecularly sealed DN8 female valves
- Storage hose connection DN8 of 5 m length for cylinder connection

Also available

9 Different nominal flow rates and discharges pressure of:

- Dry compressor
- Dry vacuum compressor
- Air evacuation pump
