

Ideal for:

Big volumes GIS and Particle accelerators

Key selling points:

- 4 functions in 1 solution: Air vacuum, SF₆ Recovery, Refill & Treatment
- Also **simultaneously**
- Client can be **autonomous in recycling**
- Ideal for **big sizes** equipments

Main technical features:

- *SF₆ oil free compressor*
Nominal flow rate: 22,3 m³/h
Maximum discharge pressure: 50 bar
- *SF₆ dry suction pump SF6*
Nominal flow rate: 35 m³/h
Achievable final pressure: < 1 mbar
- *Air vacuum pump*
Nominal flow rate: 40 m³/h
Achievable final pressure: < 1 mbar
