

## GD-20 Plasma Cleaning Machine

|                        |                                                               |
|------------------------|---------------------------------------------------------------|
| <b>Input Voltage</b>   | AC 220V (±10V) single-phase                                   |
| <b>Output Power</b>    | 100-300 W (Adjustable)                                        |
| <b>Frequency</b>       | 40 kHz/13.56 MHz                                              |
| <b>Cavity Volume</b>   | 20 L                                                          |
| <b>Cavity Size</b>     | 250×320×250(L*W*H) mm                                         |
| <b>Machine Size</b>    | 600×560×600(L*W*H) mm                                         |
| <b>Cavity Material</b> | 316 stainless steel / aluminum alloy                          |
| <b>Gas Used</b>        | Two-way process gas configuration:<br>Air、N2、O2、Ar (optional) |
| <b>Tray Size</b>       | 240×260 mm(A total of four trays)                             |
