

EMC-Basic 1 set

Demonstration Boards Mini Burst Field Generators

LANGER
EMV-Technik

Short description

The SF 11 and SF 21 demonstration boards are assemblies for demonstrating immunity phenomena. The boards are developed for demonstrations with ESD and burst generators of all manufacturers. With these demonstration boards, magnetic (SF 11) and electric (SF 21) coupling mechanisms of immunity can be clearly illustrated on one board each with the corresponding mini burst field generators (B-field: P11 pulser and E-field: P21 pulser).

Scope of delivery

- 1x SF 11, Demo Board Immunity B-field
- 1x SF 21, Demo Board Immunity E-field
- 1x P11, Mini Burst Field Generator (B)
- 1x P21, Mini Burst Field Generator (E)
- 1x NT FRI EU, Power Supply Unit
- 1x LK 25 cm rt, Lab Cable 25 cm, red
- 1x LK 25 cm bl, Lab Cable 25 cm, blue
- 1x A4 case, System Case
