

active automatic skimmer
for minimum ϕ 3" LNAPL
pumping wells

Technical features

pump model	TF70-Top
kit skimmer	
total diameter	71 mm
float stroke	350 mm
float material	PP
pipe and rods material	stainless steel AISI 304
filter material	PP (hydrophobic on req)

Variation of "i" multiplying coefficient of air supply
according to the flow rate of LNAPL

air flow rate (NL/min) = $i \cdot \text{inlet working pressure (bar)}$
