

SR800 Magnetic Power Bank SSD

Power And Storage In The Clutch

SR800 Magnetic Power Bank Solid State Drive

Designed for modern content creators, the ADATA SR800 integrates a 5000mAh magnetic power bank with a high-speed external SSD boasting transfer speeds up to 2000 MB/s. Its modular design allows the SSD to slide into the power bank for a two-in-one setup. The device also features a kickstand for watching videos, a strong magnetic attachment for secure filming, and is built with multiple circuit protections. It is a safe and comprehensive solution for mobile content creation and productivity.

Industry's First 2-in-1 External SSD and Power Bank Module

SR800 is the industry's first device to combine a magnetic power bank with a modular SSD. It solves the power versus storage dilemma by allowing users to charge a phone magnetically while simultaneously recording or backing up footage directly to the SSD. This simplifies workflows, enabling creators to travel light and focus on their content.

Transfer File in a Blast of Speed

SR800 External SSD is equipped with the USB 3.2 Gen2 x2 interface, delivering transfer speeds approximately 20 times faster than conventional external hard drives. With read/write performance of up to 2000MB/s and a massive storage capacity of up to 2000GB, it enables content creators and professional photographers to directly access and edit large media files on the SSD, providing a seamless and highly efficient experience for professional video work.

20W Fast Charge & 15W Wireless Charge

With 5000mAh capacity power bank, SR800 can charge at least one time for flag ship mobile phone. It offers 20W fast charge through Type-C connector. The magnetic wireless charge on the front provides up to 15W wireless charge for users who need transfer file to ex SSD but also need power charge.

Foldable Kickstand Freeing up Hands

With its clever foldable kickstand, the power bank instantly transforms into a phone stand. Users can charge and binge-watch at the same time, freeing up hands completely!

Specifications

- Capacity: SSD:1000GB / 2000GB | PB: 5000mAh
- Color: Grey
- Dimensions (L x W x H):
SSD: 66 x 34.8 x 11mm / 2.55 x 1.37 x 0.43inch
PB: 106.7 x 72.7 x 22.6 mm / 4.2 x 2.86 x 0.88 inch
- Weight: SSD: 34g / 1.2oz | PB: 150g / 5.28oz
- Interface: USB 3.2 Gen 2 x2 (20Gbps)
- PB Input:
USB-C: DC 5V / 3A, 9V / 2A
- PB Output:
USB-C: DC 5V / 3A, 9V / 2.22A
Wireless: 5W/7.5W/10W/15W (15W max)
Total Output: USB-C + Wireless (15W max)
≥ 80% rated power
- Warranty: PB: 1-year | SSD: Limited 5-year

Features

- First 2-in-1 external storage and power bank Module
- Up to 2,000/2,000 MB/s read/write speed
- Desire for creators to travel light
