## HD710 Pro External Hard Drive

The HD710 Pro takes external hard drive durability further. We test it to beyond IP68 dust and waterproof standards, plus make sure it passes military-grade shock proofing with triple-layered protective construction. With up to 4TB capacity, this master of storage survival is your ally in keeping content safe whether your flavor is diving, hiking, biking, or simply taking a quick stroll.

### Beyond IP68 to withstand the unexpected

The HD710 Pro is a drive with total dust-tight protection and tested for 60 minutes in 2 meters of water - that's more than IEC IPX8 requirements! Prepare to dive?

### Takes shocks like a true warrior with military-grade

We test it to US Army MIL-STD-810G 516.6, meaning it can easily take falls from 1.5 meters. Your data is safe, so feel free to go out there and take on more challenges.

## Guarded by durable triple-layered construction

The HD710 Pro has three primary layers coating it, from tough silicone, through a shock absorbing buffer, the tough plastic shell that's closest to the drive itself and holds it firmly in place.
