

UPower

Ubiquitous Power Solution

Dual Hot Swappable Batteries

Our UPower Lite22 give you the capability of providing endless power with its unique swappable battery architecture. You will never again be in danger of losing power when it is most critically needed.

User Selected Voltage

Since electronic devices operate with varying voltage requirements, we created a multi-voltage power bank that allows users to personally select the proper voltage setting. Users can select from 12, 19, or 24 volts based on their needs.

ORION Management

These "smart" power banks can be managed with our new ORION device management software solution that intelligently monitors the status of all the batteries connected to the system.

Specifications

UPower Lite22	
Input Power	24V/150W
Battery Type	Lithium Battery
Battery Charge Time	2 hrs for 85%, 3hrs
Dimension	190(L) x 70(W) x 120(H) mm
Weight	0.67kg (1.47 lb)
DC Output Power	12/19/24V 50W
DC output capacity	125Wh (with two battery)

UPower Lite62	
Input Power	24V/250W
Battery Type	Lithium Battery
Battery Charge Time	2 hrs for 85%, 3hrs for 100%
Dimension	305(L) x 155(W) x 40(H) mm
Weight	1.35kg (2.97 lb)
Certification	CE, FCC
Color	White
