- 6440CASE TDR 100 Carrying Case

Manage with the FieldScout Mobile App

Use the FieldScout Mobile app to instantly collect and display data on your smart phone or tablet from your Bluetooth enabled FieldScout TDR 350 Soil Moisture Meter. The app allows you to see and email information on a grid of zones (3 wide by 3 deep).

- On-the-go means of collecting data from FieldScout meters
- Color coded to represent a scale of turf firmness or moisture
- Eliminates the need for external accessories
- Visualize readings in real time
- E-mail relevant information
- Compatible with iOS and Android smart phones and tablets
- Free download from App Store or Google Play (see links below), Pro version requires a SpecConnect subscription ([see here for more information](#))
